Feb 13 1839

Dear Sir

I do not lecture again in London till after Easter 4th April next month — when I will send you tickets but what might be have gone to hear a lecture on Beauty, for I maintained there was nothing beautiful but what was feminine, & had its origin in Woman the basis of all beauty, in form & expression on Earth —

I do hope Morning Post may not hate the means of subterranean proceedings — Wish a Promotion the glory of a Falcon hope — has inspired me since 15 — Yours ever Walter
